# Tasks

- Continue on SRS (explain the following sections)
  1. Edit Section 3
    - Choose two use cases to describe the system features (others will be done in the next week). Each use case is a system feature
    - E.g.
      - 3.1.1: brief introduction of the feature
      - 3.1.2: state transition diagram
      - 3.1.3: more detailed requirements, particularly error or exception handling

# Tasks

- Continue on SRS
  2. Edit Section 4.1
    - Draw the user interfaces (with states) which appear in section 3.
      - Each interface should be given a label which can be referred in state transition diagram
      - The label can be used in state transition diagram to simplify the description of states.
